WASATCH ACADEMY

Dual Diploma Program Sample Course Map

Students enrolled in the **Wasatch Academy Dual Diploma Program** earn both their **local high school diploma** and a **U.S. high school diploma**. Each year, students complete **three courses taught in English**—one focused on English language and writing, and two in the humanities or social sciences. The program emphasizes academic rigor, global awareness, and flexibility to align with partner schools' offerings while supporting teachers' strengths and passions.

Academic Structure

Category	Example Courses	Instructor
English (Required Each Year)	English Language & Literature A / B, American Literature, Academic Writing, Research Writing & Communication	Ideally taught by **American or near-native English-speaking instructors** to help students build confidence with authentic pronunciation, writing conventions, and communication in an American academic context.
Humanities / Social Sciences	Psychology, History, Economics, Sociology, Philosophy, Entrepreneurship, Global Studies, Environmental Studies	Best suited for **foreign or internationally experienced teachers** who bring global perspectives while maintaining fluent English and familiarity with American academic expectations.
Advanced & Elective Options	AP Psychology, AP Microeconomics, Leadership Studies, Media Studies, College Readiness	May be taught by **qualified U.S. or internationally experienced educators** to support advanced academic standards and consistent English immersion.

Program Progression (Sample Pathway)

Year	Course 1	Course 2	Course 3
Grade 9	English Language & Literature A	World History	Introduction to Psychology
Grade 10	English Language & Literature B	Economics	Entrepreneurship
Grade 11	Academic Writing	U.S. History	AP Psychology
Grade 12	Research Writing & Communication	College Readiness	AP Microeconomics

Curricular Resources

Wasatch Academy partners with **Rice University** to access a suite of **peer-reviewed, university-level academic materials** in the humanities and social sciences. These resources can be customized by partner schools to align with their teaching style and student needs while maintaining U.S. academic standards.

Instructional Approach

Student-Centered Learning: Project-based, discussion-driven coursework encourages creativity and independent thinking. **Global Competence:** Emphasizes cross-cultural understanding, collaboration, and real-world application. **Assessment:** Combines reflective writing, research projects, and performance-based evaluation. **Flexibility:** Schools may adapt course selections to align with their calendar, faculty expertise, and local curriculum.
